## Our Delivery Programm:

### **A**

Air containers of all sizes  
Air-conditioning systems for passenge carriages and locomotives  
Ashtrays for arm-rests etc.  
Axle-box covers + screws

### **B**

Ballcocks  
Bearing springs  
Bearings for brake block suspension irons  
Bellows made of rubber, synthetics and leather  
Blank flanges  
Block flanges  
Blow-off valve ball  
Bogie inspections  
Bogies  
Bolts and connectors as per drawing or DIN  
Brake block holders cast, forged, welded  
Brake block holders with spring-bolt  
Brake block shoes  
Brake block shoes - synthetics  
Brake cylinders  
Brake discs  
Brake hoses of all kinds  
Brake rods  
Brake shoe fixings  
Brake suspension irons  
Braking systems spare part for braking systems by reputable manufacturers  
Buffers, cast or welded including outer and inner rings

### **C**

Cast parts of all kinds such as: axle-box covers,  
brake discs, brake blocks, pivot bearings, bogie pivots etc  
Castellated nuts  
Catchment clamps  
Ceiling dome sealings  
Complete braking systems

Compression components of all kinds  
Compression levers for carbon brush fixings  
Compression springs  
Compressors  
Compressors (used)  
Connecting rods with coil and lug  
Connectors for coil-sprung spigots  
Containers for air filters  
Control valves  
Crank handles  
Current rectifiers  
Current transformers  
Current transformers and current rectifier  
Cylindrical roller bearing

## **D**

Disc brake linings  
Doors and door elements  
Drive shafts

## **E**

Earthing resistors  
Electronic components of all kinds for locomotives and passenger coaches as well as network systems for stations and trains  
Expansion Screws  
Eyebolts

## **F**

Flat sealing  
Floor ducts complete  
Forged parts such as bolts, pivots etc.

## **G**

Grab handles + side handrails for passenger carriages  
Gritting containers

## **H**

Hand levers  
Hoisting platforms for all kinds of rail vehicles  
Hoses for brakes  
Hydraulic pumps

## **I**

Insertion connectors  
Inspection of bogies  
Interior decoration of all kinds for passenger carriages such as door systems, seats, tables etc.

## **L**

Labyrinth rings for wheel set  
Lubricant containers for maintenance of points

## **M**

Mechanical parts of all kinds such as bolts, sleeves as per drawings or samples  
Metal-rubber connections  
MF-ballcocks

## **O**

O-rings  
Opening devices for doors  
Outer and inner rings for buffers

## **P**

Piston sleeves  
Pivot bearings  
Pneumatic controls  
Pneumatic cylinders  
Pressure monitors  
Pulling equipment

## **R**

Reconditioning of passenger carriages including finishings  
Refuse container  
Rubber parts as per drawings or samples e.g. sleeves for brake systems,  
shock-mounted metals and sealing materials  
Rubber-metal connections

## **S**

Sealing profiles  
Sealing rings  
Sealings for floor ducts  
Sealings made of rubber and other materials  
Shut-off dampers to DIN standards  
Side flaps for cladding of carriages  
Sleeves for brake cylinders  
Sliding pad  
Sliding pad for draw-bar guide  
Sliding protection valve  
Solenoid valves  
Spraying of passenger carriages  
Spring casings and sliding pads  
Spring washers  
Springs as per sample or drawing  
Sprung flaps  
Standard parts as per drawings or samples  
Stopcocks  
Suspension ring stones  
Suspension rings

## **T**

Tank installations for water, diesel and petrol  
Telecommunication of all kinds e.g. Motorola

## **V**

3/2-way valves  
4/3-way valves

## **W**

Wheel brake discs  
Wheel-shaft sealing rings
